StirrerSystem

Stays fresher longer with the delicate mixing of drinks

Unlike other drink mixers, the Stirrer System comes with a low speed paddle system driven by gearbox for the delicate mixing of drinks. This enables acidic drink products like orange, lime, lemon etc, and milk-based and soybean based products to stay fresher longer.

ABOUT US

Flomatic is a homegrown Singapore company that started its journey over 20 years ago. It has its humble roots with the manufacturing of small commercial refrigeration systems and has gained extensive experience and expertise since then. Today, Flomatic is one of the major manufacturers of commercial refrigeration systems and large-scale industrial plants.

Over the years, we have also applied our knowledge and experience gained in commercial refrigeration systems to design and manufacture Commercial Cold Drink Dispensers, Ice Makers and Commercial Refrigerators, to name a few. Our objective is to provide the Food and Beverage industry with products that are small in size but huge in performance. Today our range of products could be found in most Food and Beverage outlets in the Asia Pacific region and beyond.

Looking ahead, Flomatic aims to build Quality Commercial Refrigeration Products that are economical in range, sturdy in performance and long lasting.
